THES. S. G. HIGH SCHOOL.

The Trustees Met Monday-Prof. C. B. Slemp, Misses Mollie Dickenson and Bettie Duff Re-Elected for the Next Term.

At a meeting of the trustees of the Big Stone Gap High School, last Monday, Prof. C. B. Slemp was re-elected principal and Misses. Mollie Dickenson and Bettie Duff assistants. This action speaks in high, worthy praise of the manper in which the people have appreciated the conduct of the school this last term. Messrs, W. F. Baker, E. E. Goodloe and C. W. Evens, the Trustees, have shown good judgment and intelligence in selecting these three to teach the next term.

No choir of teachers, who have ever taught at this place, have given as general satisfaction to the patrons as they hare. So we will have another prosperous year of the Big Stone Gap High The Trustees will endeavor to have at

addition built to the Academy, in order that they may have more room. The addition to be built will be as large as the main school room.

J. Levitt has removed to the new brick building, corner Wyandotte Avenue and East Fifth Street.

Electricity Does Not Always Kill. Two French scientists say that a current of electricity does not always kill when it appears to do so. It simply pre duces an appearance of death from which the subject may be restored by artificial respiration. In commenting on this statement the Worchester Guzette suggests that this may be the case with criminals who are executed by electricity in that State, and that they are really killed, not by electricity, but by the doctors who afterwards make an autopse on them. It seems that rabits have been revived after receiving a shock of 2,500 volts and twenty amperes, a shock more powerful than is given in the execution of
